GRUP HOSPITAL CLÍNIC

Personalized Healthcare in Barcelona

Thank you for your interest in Barnaclinic and the services we offer. Herein you will find a short general introduction to the services we provide which will help you find the best option and the ideal solution to all your health problems.

The organization and operation of Barnaclinic, part of the Hospital Clinic of Barcelona group, is contained within the framework of the prestige, innovation, translational research, teaching, technology and knowledge that has made the Hospital Clinic the Spanish leader and a European reference hospital for many years.

Barnaclinic offers the widest-possible portfolio of medical services for all aspects of health. We provide all medical-surgical specialties, backed up by world-famous physicians and surgeons and the technological facilities and equipment of a major teaching hospital, combined with the personalized care and facilities of the best private hospitals in order to satisfy your demands and meet your needs.

Barnaclinic offers customized, comprehensive health and ancillary services: prevention, prediction, diagnosis and treatments ranging from oral health to high complexity diseases requiring the latest technological advances in order to obtain quality results.

Barnaclinic subscribes fully to the commitment of the Hospital Clinic to the society it serves: guaranteeing the health, respect and safety of all those who place their trust in our outstanding team of health professionals. Our physicians and other health workers are recognized for their vocation of personalized service, working in integrated teams organized in functional units, and for the continuous innovation that generates state-of-the-art knowledge which is available to all our patients.

I hope that the information provided here helps you to take the best decisions regarding your health needs, and we invite you to contact us to schedule a visit. Our entire team is at your disposal and would be delighted to meet and aid you at your convenience.

Yours, most sincerely,

Dr. Catiana Cabrer
Director **barnaclinic+**

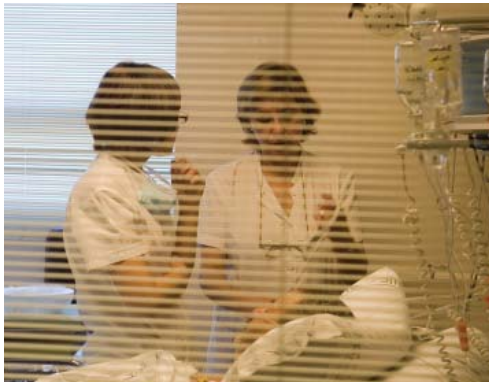

Who are we?

barnaclínic+ is the part of the Hospital Clínic of Barcelona responsible for the healthcare of patients not financed by the public health system.

barnaclínic+ puts at your disposal the knowledge of the Hospital Clínic of Barcelona and the accumulated experience of its health care professionals, representing one hundred years of basic research and clinical experience and the most-advanced technologies required to guarantee the prevention, prediction, diagnosis and personalized treatment of patients with the best possible results.

We count on more than 300 Hospital Clínic specialist physicians whose private work is carried out under the auspices of Barnaclínic; professionals of recognized prestige in more than 50 physician-surgical specialties. We are experts in non-invasive techniques for the treatment of severe diseases. Barnaclínic comprises an integrated multidisciplinary team capable of confronting and resolving any health problem.

Why barnaclinic+ ?

+ health, the knowledge of the Hospital Clínic, the accumulated experience of its health professionals and 100 years of basic and clinical research guarantee the best results in each case.

+ safety, all medical-surgical specialties and the most-advanced techniques in a single center, with an interdisciplinary team caring for your health comprehensively, 24-7.

+ solutions, Barnaclinic is the best option for the care and treatment of both complex and noncomplex diseases.

+ services, we are experts in health prevention and prediction and offer a wide portfolio of services: artificial fertilization, obesity, cancer, transplants, gender reassignment, etc.

+ care, personalized, customized treatment with the dedication required for each individual case.

+ comfort, modern, comfortable, individual rooms equipped with the latest technological innovations and high-quality, ergonomic furniture.

+ accessible, immediate, customized care.

+ confidence, the internationally recognized knowledge, experience, organization, teaching, research, innovation and results of the Hospital Clínic guarantee our prestige and your care. More than 100,000 patients entrust their care to us.

The Hospital Clínic of Barcelona

The Hospital Clinic of Barcelona Group is a health organization with a long tradition of leadership and innovation in health care, teaching and research in the fields of medicine and the life sciences.

Today, the Hospital Clinic combines the best medical care with a forward-looking management dedicated to maintaining our leading edge. Organization into medical institutes and centers offers patients more efficient health care and new, improved medical, pharmacological, and therapeutic products using cutting-edge technologies.

Innovation is facilitated by multidisciplinary groups which allow a joint approach to diseases by consultants and senior physicians from all specialties with the objective of providing personalized, patient-centered care.

The Hospital Clinic has 373 people dedicated to pure research and 700 physicians who combine research with their clinical duties. The result is a teaching hospital and university faculty that is recognized as the leading Spanish clinical research center and the tenth most-prolific clinical research group in Europe. BarnaClínic+, as part of the Hospital Clinic group, subscribes fully to the vision of applied research in new therapies, drugs and technological innovations which can rapidly be brought online in order to serve both our public and private patients.
